EDUCATION

Bachelor of Science in Computer Science

Expected Graduation: May 2027

Minor in Mathematics

University of Arkansas, Fayetteville, AR

Engineering Honors Program

GPA: 4.0 | Chancellor's List (all semesters to date)

EXPERIENCE

Customer Strategy Intern

Summer 2026

Reckitt, Rogers, AR

- Incoming intern supporting supply chain analytics, retail operations, and process improvement initiatives.
- Assisting with data analysis, reporting, and dashboard-driven business insights involving large operational datasets.
- Collaborating with cross-functional teams to support analytical and operational decision-making.

Computer Support Assistant

November 2023 – Present

University of Arkansas, Fayetteville, AR

- Diagnose and resolve hardware and software issues for classrooms and faculty systems.
- Support hardware setup, software installations, and routine system maintenance.
- Ensure classroom technology is operational and available for scheduled courses.

PROJECTS

Laser Tag Game System

Spring 2026

- Developed a UDP-based multiplayer laser tag application in Python for real-time communication and game logic.
- Integrated a PostgreSQL database and improved player entry logic, including team assignment based on equipment IDs.
- Deployed and tested the system on a Linux virtual machine using uv for dependency management.
- Collaborated in an Agile sprint-based workflow, using Git/GitHub for version control, task delegation, and integration testing.

Concert Ticket System

Spring 2026

- Developed a full-stack concert ticket management web application using Flask, PostgreSQL, HTML/CSS, and SQL.
- Designed and implemented relational database schemas with JOIN queries and aggregation functions for ticketing and revenue analysis.
- Built dynamic backend routes and database-driven forms using Flask and PostgreSQL to support CRUD-style functionality.
- Deployed the web application and PostgreSQL database on Render and managed source control with GitHub.

Personal Portfolio Website

Spring 2026

- Designed and developed a responsive personal portfolio website using React and Tailwind CSS.
- Implemented reusable UI elements, responsive layouts for desktop and mobile, and direct contact form integration using EmailJS.
- Deployed the website using Vercel and managed version control with Git and GitHub.

TECHNICAL SKILLS

- | | |
|---|--|
| • Languages: Python, Java, JavaScript, SQL | • Databases: PostgreSQL, MySQL |
| • Frameworks & Web: Flask, React, Tailwind CSS, HTML/CSS | • Additional: Agile/Scrum, data structures & algorithms, Jupyter Notebook, Google Colab, introductory experience with PyTorch and TensorFlow |
| • Tools & Platforms: Git/GitHub, Linux, Render, Vercel, Figma | |

LANGUAGES

- | | |
|-----------------------|-----------------------------|
| • Russian: Proficient | • English: Proficient |
| • Turkish: Proficient | • Spanish: Pre-Intermediate |
